

What exactly is Mentimeter?

With Mentimeter you can build interactive presentations with an easy-to-use online editor, directly from your browser.

Add questions, polls, quizzes, slides, images, gifs and more to your presentation to make them more engaging and fun.

When you present, your students use their smartphones to connect to the presentation where they can answer questions, give feedback and much more. Their responses are visualized in real-time, creating a unique and interactive experience.

Once your Mentimeter presentation is over, you can share and export your results for further analysis and even compare data over time to measure the progress of your students and lectures.

How & Why Mentimeter enhances the teaching and learning experiences

Students are motivated to learn more, as well as develop questions, engage in discussions, and assess their own knowledge

**

Educators are capable of communicating with their students on a completely new level, while being able to assess and improve their own skills and sessions

It gives great insights on how students feel and what they want to learn

It can be used as a learning and as an assessment tool

Anonymity draws out even the most shy students and make the most hesitant people talk

Everyone is given a voice. Everyone is heard. You no longer need to worry that people are being left out

Reaches out beyond attendance to meaningful presence and participation

Breaks the static "sitting there and listening", by creating a new communication channel

Learning by quiz is the key to innovation, progress and creativity

Measures learning, not only knowledge, whilst evaluating teaching methods

Various use case examples

- Use it to gather feedback prior to a class with a check-up questions or after it - with lecture evaluation review
- Use it to gather lecture expectations, making sure you are all on the same page
- Use it to rank and prioritize topics you need to focus on or subjects that need better attention during the next lecture
- Use Mentimeter to ask for opinions vital for a decision that must be taken
- Use it to evaluate the quality of a topic, new project or idea
- Useful for comparison analysis
- Use it for SWOT analysis with our 2 by 2 Matrix question type
- Energize and evaluate the knowledge of your students by using a Quiz competition
- Use Mentimeter to enhance the teaching and learning processes. Fun and innovative presentations will stay at the top of your students' mind and therefore improve all possible learning outcomes
- Use it to analyze roadblocks and decide on the most appropriate solutions
- Use Mentimeter's features to document, compare and improve the classes over time
