

## Internship in wheat breeding (6 months)

**We're looking for a motivated candidate to conduct an internship in our wheat breeding team. Through this paid internship, you will get hands-on experience in all aspects of practical plant breeding.**

### **Prerequisite:**

- Bachelor or Master thesis in the field of biology or agronomy
- Passing of the degree must not be longer than one year ago

### **Activities:**

- Scoring of disease symptoms and agronomic traits
- Assisting in harvest activities, threshing and preparation of sowing
- Assisting in double haploid production in wheat with embryo rescue
- Production of fungal inoculum for disease infections
- Scoring of landraces in greenhouse for disease symptoms

### **Location:**

Agroscope Reckenholz, Zürich Affoltern, Switzerland

### **Possible start:**

1<sup>st</sup> of June or 1<sup>st</sup> of July

In case of further questions, please contact us without hesitation.

We are looking forward to your application
